PAEDIATRIC SPECIALISTS

(Medical)

General Paediatric

Dr Tan Teong Yong

Specialty : Paediatrics

Languages: English, Bahasa Malaysia, Mandarin

Qualifications: MBBS (Malaya), MRCP (UK)

Location:

D-9-06, Level 9, Tower D

Contact:

Tel: +603-7491 9191 (Ext. 15584/39025)

DL: +603-7491 5584

Fax: +603-7491 1073

NEONATOLOGY

Neonatology is a specialised medical field focused on the care of newborn infants. It particularly focuses on those who are born prematurely, have low birth weights, or have medical conditions that require specialised medical attention in our neonatal intensive care unit (NICU). Neonatologists are paediatricians with additional training in the care of newborns.

Neonatology

Dr Cheong Shu Meng

Specialty : Neonatology, Paediatrics

Languages: English, Bahasa Malaysia, Mandarin, Hokkien, Cantonese, Japanese

Qualifications: BSc (Med Sc) (Hons) (UPM), MD (UPM), MRCPCH (UK), Fellowship in Neonatology (Malaysia & Japan)

Location:

D-7-01, Level 7, Tower D

Contact:

Tel: +603-7491 9191 (Ext: 16409)

DL: +603-7491 6409

Fax: +603-7491 1470

Neonatology

Dr Chye Joon Kin

Specialty : Neonatology, Paediatrics

Languages: English, Bahasa Malaysia, Mandarin

Qualifications: MBBS (Syd), DCH (Otago), FRACP, AM (Mal)

Location:

D-9-05, Level 9, Tower D

Contact:

Tel: +603-7491 9191 (Ext: 15586)

DL: +603-7491 5586

Fax: +603-7491 1073

Neonatology

Dr Khoo Boo Aik

Specialty : Paediatrics

Languages: English, Bahasa Malaysia, Mandarin

Qualifications: MD (UKM), MRCPCH (UK), AM (Mal)

Location:

D-7-10, 7th Floor, Tower D

Contact:

+603-7491 9191 (Ext: 16500)

WhatsApp: 012-328 8368

PAEDIATRIC CARDIOLOGY

Paediatric cardiology is a specialised medical field that concentrates on diagnosing and treating heart conditions in infants, children, and adolescents. These conditions include congenital heart defects that are present at birth, as well as acquired heart diseases that develop later in life.

Paediatric Cardiology

Dr Ang Hak Lee

Specialty : Paediatric Cardiology, Paediatrics

Languages: English, Bahasa Malaysia, Mandarin, Hokkien, Cantonese

Qualifications: MD (UKM), Master of Paediatrics (UM), Fellowship in Paediatric Cardiology, FNHAM, FAsCC, AM (Mal)

Location:

D-7-09, Level 7, Tower D

Contact:

Tel: +603-7491 9191 (Ext. 21605)

DL: +603-7494 1306

Fax: +603-7491 1072

Paediatric Cardiology

Dr Rosalie Yip Cheng Wan

Specialty : Paediatric Cardiology, Paediatrics

Languages: English, Bahasa Malaysia

Qualifications: MBBS (Mal), MRCP (UK)

Location:

D-9-11, Level 9, Tower D

Contact:

Tel: +603-7491 9191 (Ext: 15596/39027)

DL: +603-7491 5596

Whatsapp: +6016-247 5347

Fax: +603-7491 1073

CHILD & ADOLESCENT PSYCHIATRY

Child and adolescent psychiatry is a specialised branch of medicine devoted to diagnosing, treating, and preventing mental health disorders in children and adolescents.

Child & Adolescent Psychiatry

Dr Lim Wai Jenn

Specialty : Paediatric Psychiatry, Psychiatry, Child & Adolescent Psychiatry

Languages: English, Bahasa Malaysia, Chinese, Basic Japanese

Qualifications: MD (Jefferson, USA), ABPN Psychiatry (USA), ABPN Child & Adolescent Psychiatry (USA), Fellowship in Intensive Structural Family Therapy (USA)

Location:

A-5-15, 5th Floor, Tower A

Contact:

Tel: +603-7491 9191

DL: +603-7491 1086

Child & Adolescent Psychiatry

Dr Tee Bee Chin

Specialty : Paediatric Psychiatry, Child & Adolescent Psychiatry, Psychiatry

Languages: English, Bahasa Malaysia, Mandarin, Cantonese, Hokkien

Qualifications: MD (UKM), Mmed. Psych (UKM), Subspeciality & Fellowship in Child & Adolescent Psychiatry (Singapore)

Location:

A-5-16, 5th Floor, Tower A

Contact:

Tel: +603-7491 9191 (Ext. 11088/11472)

DL: +603-7491 1088

DEVELOPMENTAL PAEDIATRICS

Developmental paediatrics is a specialised medical field focused on evaluating, diagnosing, and managing developmental and behavioral concerns in children. This involves assessing children's developmental milestones, as well as identifying and addressing developmental delays or disorders.

Dr Cindy Chan Su Huay

Specialty : Paediatrics, Paediatric Developmental

Languages: English, Bahasa Malaysia,
Conversational Mandarin

Qualifications: MD(UKM), MRCPCH(UK), Fellowship in
Developmental Paediatrics (Msia & Aus)

Developmental Paediatrics

Location:
D-9-20, Level 9, Tower D

Tel: +603-7491 9191 (Ext. 21620)
DL: +603-7494 1328
Fax: +603-7491 1074

Dr Norazlin Kamal Nor

Specialty : Paediatrics, Paediatric Developmental

Languages: English, Bahasa Malaysia

Qualifications: PhD (Johns Hopkins, US), MRCPCH
(London, UK), MBBS (London, UK), BSc (London, UK)

Developmental Paediatrics

Location:
D-9-20, Level 9, Tower D

Contact:
Tel: +603 7491 9191 (Ext. 21620)
DL: +603-7492 1620

PAEDIATRIC DERMATOLOGY

Paediatric dermatology is the specialised medical field that focuses on diagnosing, treating, and managing skin conditions in infants, children, and adolescents. This includes any condition that affects the skin, from autoimmune conditions to allergic reactions.

Dr Heah Sheau Szu

Specialty : Paediatric Dermatology, Paediatrics
Languages: English, Bahasa Malaysia, Mandarin, Cantonese, Hokkien
Qualifications: MBBS(UM), MRCPCH(UK), AM(Mal), Fellowship in Paediatric Dermatology (Australia)

Paediatric Dermatology

Location:
D-9-10, Level 9, Tower D

Contact:
Tel: +603-7491 9191 (Ext. 21627)
DL: +603-7494 1331
Fax: +603-7491 1029

PAEDIATRIC ENDOCRINOLOGY

Paediatric endocrinology is a specialised medical field focused on the diagnosis, treatment, and management of hormonal disorders in children and adolescents that affect growth, development, and metabolism.

Dr Ch'ng Tong Wooi

Specialty : Paediatrics, Paediatric Endocrinology
Languages: English, Bahasa Malaysia, Mandarin, Cantonese
Qualifications: Paediatrics and Paediatric Endocrinology, American Board of Paediatrics (ABP) certified, Paediatric Endocrinology Fellowship, State University New York (SUNY), USA, Paediatric Residency training, University of Minnesota, USA, MD, Doctor of Medicine (Dalhousie University School of Medicine, Canada)

Paediatric Endocrinology

Location:
D-9-02, Level 9, Tower D

Contact:
Tel: +603-7491 9191 (Ext. 16483/39004)
DL: +603-7491 6483
Fax: +603-7491 1073

PAEDIATRIC GASTROENTEROLOGY & HEPATOLOGY

Paediatric gastroenterology and hepatology is a specialised medical field that focuses on the diagnosis, treatment, and management of digestive system, gallbladder, and liver disorders in children and adolescents.

Paediatric Gastroenterology & Hepatology

Dr Nazrul Neezam Nordin

Specialty : Paediatric Gastroenterology & Hepatology, Paediatrics

Languages: English, Bahasa Malaysia

Qualifications: MBBS (Malaya), MPaeds (Malaya)

Location

D-9-01, Level 9, Tower D

Contact

Tel: +603-7491 9191 (Ext: 72074)

DL: +603-7491 5588

Fax: +603-7491 1405

Paediatric Gastroenterology & Hepatology

Dr Ong Sik Yong

Specialty : Paediatric Gastroenterology & Hepatology, Paediatrics

Languages: English, Bahasa Malaysia, Mandarin, Hokkien, Cantonese

Qualifications: M.D. (USM), Membership of the Royal College of Paediatric and Child Health (MRCPCH), Master of Paediatrics (MMED, University Malaya), Fellowship in Paediatric Gastroenterologist, Hepatology and Nutrition (MOH, Birmingham Children Hospital, UK)

Location:

D-7-05, Level 7, Tower D

Contact:

Tel: +603-7491 9191 (Ext. 21629)

DL: +603-7494 1332

Fax: +603-7491 1072

PAEDIATRIC GENETICS

Paediatric genetics is a specialised medical field focused on the diagnosis, management, and counselling of genetic disorders and hereditary conditions that affect children and their families. Paediatric geneticists are experts in evaluating genetic risk factors, diagnosing genetic conditions, providing genetic counselling, and coordinating care for children with genetic disorders.

Prof Dr Thong Meow Keong

Specialty : Paediatric Genetics
Languages: English, Bahasa Malaysia
Qualifications: MBBS (UM), M Paeds(UM),
FHGSA(Clinical Genetics) (AUS), MD (UM)

Paediatric Genetics

By appointment:
Tel: +603-7491 9191
Fax: +603-7491 1470

PAEDIATRIC HAEMATOLOGY & ONCOLOGY

Paediatric hematology and oncology is a specialised medical field that focuses on diagnosing, treating, and managing blood disorders and cancer in children and adolescents. Pediatric hematology-oncologists are experts in caring for young patients with a wide range of conditions that affect the blood, bone marrow, lymphatic system, and solid tumors.

Dr Eni Juraida Abdul Rahman

Specialty : Paediatric Haematology & Oncology,
Paediatrics
Languages: English, Bahasa Malaysia
Qualifications: MBBCH (Alexandria), M.MED in
Paediatric (UKM)

Paediatric Haematology & Oncology

Location:
B-2-23A, Level 2, Tower B

Contact:
Tel: +603-7491 9191 (Ext. 11205 / 11458)
DL: +603-7491 1205

Paediatric Haematology & Oncology

Dr Mohamed Najib Mohamed Unni

Specialty : Paediatric Haematology & Oncology,
Paediatrics

Languages: English, Bahasa Malaysia

Qualifications: M.D (USM), M.MED (PAEDS) (UKM)

Location:

C-1-06, 1st Floor, Tower C

Contact:

Tel: +603-7491 9191 (Ext. 21620 / 21619)

DL: +603-7492 1620

Paediatric Haematology & Oncology

Dr Yap Tsiao Yi

Specialty : Paediatric Haematology & Oncology,
Paediatrics

Languages: English, Bahasa Malaysia, Mandarin,
Hokkien & Cantonese

Qualifications: M.D.;C.M McGill University,
American Board of Pediatrics Board Certified in
General Pediatrics, American Board of Pediatrics,
Sub-board of Pediatric Hematology Oncology &
Board Certified in Pediatric Hematology Oncology

Location:

B-2-23A, Level 2, Tower B

PAEDIATRIC INTENSIVE CARE

Paediatric intensive care is a specialised medical field focused on providing care for critically ill infants, children, and adolescents, as well as those recovering from major surgery. Paediatric intensivists are physicians with specialised training in paediatric critical care who provide comprehensive care for children with life-threatening medical conditions or injuries in the paediatric intensive care unit (PICU).

Paediatric Intensive Care

Dr Anis Siham Zainal Abidin

Specialty : Paediatrics, Paediatric Intensive Care

Languages: English, Bahasa Malaysia

Qualifications: MBBS (UM), MPAED (UM), Fellowship
(Birmingham)

Location:

D-7-13, Level 7, Tower D

Contact:

Tel: +603 7491 9191 (Ext. 37017)

DL: +603 7491 2817

Fax: +603-7491 1470

Paediatric Intensive Care

Dr Gan Chin Seng

Specialty : Paediatrics, Paediatric Intensive Care
Languages: English, Bahasa Malaysia, Mandarin, Hokkien, Cantonese
Qualifications: MBBS (MAHE), MPaeds (UM), Fellow Paediatric Intensivist (BCH), MTIP (RCPCH)

Location:
D-7-6, Level 7, Tower D

Contact:
Tel: +603 7491 9191 (Ext. 37061/ 37019)

PAEDIATRIC NEPHROLOGY

Paediatric nephrology is a specialised medical field that focuses on diagnosing, treating, and managing kidney disorders and urinary tract conditions in children.

Paediatric Nephrology

Dr Yiau Kian Mun

Specialty : Paediatrics, Paediatric Nephrology
Languages: English, Bahasa Malaysia, Mandarin, Cantonese
Qualifications: MBBS (MAHE), MMED in Paediatric (UKM), Fellowship in Paediatric Nephrology (Aust)

Location:
D-7-12, Level 7, Tower D

Contact:
Tel: +603-7491 9191 (Ext. 21613)
DL: +603-7494 1324
Fax: +603-7494 1470

PAEDIATRIC NEUROLOGY

Paediatric neurology is a specialised medical field focused on diagnosing and treating neurological conditions affecting the brain, spine, and nervous system in children, from infancy to adolescence.

Paediatric Neurology

Dr Tay Chee Geap

Specialty : Paediatric Neurology, Paediatrics
Languages: English, Bahasa Malaysia, Mandarin, Cantonese, Hokkien
Qualifications: MBBS (Malaya), MPaeds (Malaya), Paediatric Neuromuscular Fellowship (London, UK)

Location:
D-7-12, Level 7, Tower D

Whatsapp: +6010-8748 262

Paediatric Surgery

Dato' Dr Zakaria Bin Zahari

Specialty : Paediatric Surgery

Languages: English, Bahasa Malaysia

Qualifications: MB BCh (RCSI, Dublin, FRCS (Edin), Fellowship in paediatric Surgery (KKM)

Location:

D-9-17, Level 9, Tower D

Contact:

Tel: +603-7491 9191 (Ext. 39023)

Fax: +603-7491 1470

PAEDIATRIC CARDIOTHORACIC SURGERY

Paediatric cardiothoracic surgery is a specialised surgical field that focuses on diagnosing, treating, and managing congenital and acquired heart and lung conditions in infants, children, and adolescents. Paediatric cardiothoracic surgeons are highly trained physicians who perform surgical procedures to correct structural abnormalities and defects of the heart, lungs, and chest cavity in paediatric patients.

Paediatric Cardiothoracic Surgery

Dr Lee Weng Seng

Specialty : Cardiothoracic Surgery, Paediatric Cardiothoracic Surgery

Languages: English, Bahasa Malaysia, Cantonese

Qualifications: MBBS (Mal), FRCS (Glasgow)

Location:

D-5-08, Level 5, Tower D

Contact:

Tel: +603-7491 9191 (Ext. 35021)

DL: +603-7493 5021

PAEDIATRIC DENTISTRY

Paediatric dentistry is a specialised field of dentistry that focuses on the oral health of infants, children, adolescents, and individuals with unique dental needs. The main aim of paediatric dentistry is to provide comprehensive preventive and therapeutic oral healthcare for young patients, ensuring that they maintain healthy teeth and gums as they grow.

Paediatric Dentistry

Dr Jama'iah Mohd Sharif

Specialty : Dentistry, Paediatric Dentistry

Languages: English, Bahasa Malaysia

Qualifications: BDS (Otago), MClintDent (Child Dental Health) (Malaya), AM

Location:

Dental Centre, 1st Floor, Tower B

Contact:

Tel: +603-7491 9191 (Ext. 11293)

DL: +603-7491 1293

Fax: +603-7491 1294

PAEDIATRIC EAR, NOSE & THROAT (ENT)

Paediatric ENT (ear, nose, and throat) is a specialised field that focuses on diagnosing, treating, and managing disorders of the ear, nose, throat, head, and neck in children and adolescents. It also includes the removal of foreign objects from the ear, nose, or throat.

Paediatric Ear, Nose & Throat (ENT)

Dr Priatharisiny A/P Ponnai @ Velayutham

Specialty : Ear, Nose & Throat, Head & Neck Surgery, Paediatric Ear, Nose & Throat
Languages: English, Bahasa Malaysia, Tamil
Qualifications: MBBS(Manglore), MSORL-HNS(UM) CMIA (NIOSH), Fellowship Paediatric ORL-HNS(BCH, Harvard University)

Location:
 D-9-15, Level 9, Tower D

Contact:
 Tel: +603-7491 9191 (Ext. 16517/39027)
 DL: +603-7491 6517

OUR SERVICES

OUTPATIENT DEPARTMENT (OPD)

Providing comprehensive and convenient healthcare services for children and their families, our outpatient services are designed to meet the diverse needs of our patients. We offer a wide range of medical specialties and subspecialties in a comfortable and child-friendly environment.

PAEDIATRIC WARDS

Our paediatric wards provide comfortable and child-friendly environments for children who need to stay in the hospital. Our experienced nursing staff offers round-the-clock medical care and support. The wards have different types of rooms, including the Two-Bed Deluxe, Premier Single Suite, and Grand Premier Suite as well as positive and negative pressure rooms. We also have dedicated playrooms and a therapeutic garden designed for our young patients. Qualified therapists conduct specialised sessions in these playrooms as part of our Play Specialist Program, which includes both group activities and one-on-one bedside sessions. This program is meant to enhance the experience of our young patients during their stay and create a positive and supportive environment.

PAEDIATRIC INTENSIVE CARE UNIT (PICU)

The Paediatric Intensive Care Unit (PICU) is a specialised medical unit designed to provide intensive care for critically ill children and adolescents. These units are staffed by healthcare professionals specially trained in paediatric critical care and equipped with state-of-the-art medical equipment tailored for the unique needs of pediatric patients, including ventilators, cardiac monitors, infusion pumps, and specialised diagnostic tools.

- **IoT Technology Smart PICU:** The integration of Internet of Things (IoT) technology in the PICU enhances patient care and improves operational efficiency. This facility utilizes smart medical devices, remote monitoring systems, and electronic health records to streamline communication and data management.
- **Multidisciplinary Team:** The PICU is supported by a team of highly trained healthcare professionals from various subspecialties working together to provide comprehensive care.
- **Family-Centered Care:** Family-centered care is a fundamental principle in pediatric critical care. It recognizes the importance of involving families in the care of their child and emphasizes open communication, shared decision-making, and emotional support for both the patient and their family members. Families are actively involved in discussions regarding the child's treatment plan, and their participation is encouraged during ward rounds. Additionally, we understand the importance of parental presence and support, which is why we allow parents to sleep in with their child, providing comfort and reassurance during challenging times.
- **Pain-Free:** The PICU employs a multifaceted approach to pain management tailored to each child's specific needs and medical condition. This may include the use of pharmacological interventions such as pain medications, non-pharmacological techniques like distraction, relaxation techniques, and positioning to help alleviate pain and discomfort in children, as well as advanced pain monitoring systems to ensure optimal comfort and well-being throughout their stay.
- **Early Mobilisation Programme:** A programme aimed at targeting mobility and rehabilitation of PICU patients, in order to prevent complications, shorten hospital stays and promote mobility.

NEONATAL INTENSIVE CARE UNIT (NICU)

This medical unit is specially dedicated to providing intensive care for newborn infants, especially those who are premature, have low birth weight, or have medical conditions requiring specialised treatment. NICUs are equipped with advanced medical technology such as incubators and staffed by neonatologists as well as other healthcare professionals specially trained in neonatal care.

Incorporating advanced treatments such as colling therapy and nitric oxide, the NICU provides cutting edge care tailored to enhance patient outcomes.

PAEDIATRIC ONCOLOGY

Sunway Medical Centre offers specialised Paediatric Oncology Services dedicated to the diagnosis, treatment, and support of children with cancer. Our facility is designed to cater to the unique needs of young patients, providing both outpatient, day-care and inpatient care in a child-friendly environment. We are committed to delivering cutting-edge treatments and holistic support through a multidisciplinary approach.

Our Facilities

- **Daycare Unit:** Our daycare unit features 5 beds and 1 isolation room, equipped to protect vulnerable patients by minimizing exposure to infections.
- **Inpatient Unit:** For children who require extended care, our inpatient unit includes 8 beds, with 2 positive pressure rooms.

Services We Offer

- Consultation
- Chemotherapy
- Bone Marrow Transplant

Support Services

- **Dietitian:** working closely with patients to develop personalized nutrition plans that enhance treatment outcomes and support overall well-being
- **Physiotherapist:** assisting children in maintaining physical strength and mobility, which is essential for recovery and daily functioning
- **Psychologist:** providing emotional and psychological support to help children and their families cope with the challenges of cancer treatment.
- **Play specialist:** utilizing the therapeutic effect of play to support emotional well-being, helping children better understand and cope with their illness and treatment.

CHILDREN'S EMERGENCY DEPARTMENT

The dedicated Children's Emergency Department (ED) is a specialised facility designed specifically to prioritize the comfort, safety, and unique medical requirements of children. It guarantees swift and tailored interventions for a wide spectrum of health concerns. The dedicated children's ED offers expert care from experienced and trained paediatric medical officers and nurses with support from emergency medicine specialists and paediatricians from wide range of subspecialties. It caters to the unique needs of children, from minor injuries to more serious conditions requiring immediate medical attention.

Meet the Emergency Medicine Specialists

Dr Mohd Khalis
bin Rahim

One of the main features of the specialised children's Emergency Department (ED) is its child-friendly environment. The facility's design and layout are specifically created to establish a welcoming and comforting atmosphere for young patients and their families. This includes colourful décor and child-sized furniture to ensure the comfort of the little ones.

Additionally, the Children's ED offers convenient access to a wide range of services within the same area. Tower D is equipped with other comprehensive facilities, making it a one-stop center to address the healthcare needs of babies, children, and teenagers. The area is divided into three zones - green, yellow, and red - each specialising in providing specialised care and treatment. There are also two special bays for children with asthma who require the use of a nebulizer.

The dedicated children's ED is also equipped with specialised resuscitation equipment that caters to the needs of infants and children, and also has a dedicated paediatric radiology department attached.

CHILDREN'S DEVELOPMENT DEPARTMENT

Our Children's Development Department (CDD) provides comprehensive assessment and support services for children with developmental delays, learning disabilities, and behavioural challenges to support them in their developmental milestones. CDD also functions to provide a holistic team approach that involves assessments, interventions, and parenting skills or education. Equipped with advanced facilities, and supported by a multidisciplinary team of experts including clinical psychologists, occupational therapists, speech and language therapists, and audiologists, the CDD is a one-stop-centre that provides specialised care and multi-disciplinary team management for the rehabilitation of paediatric patients.

Services:

1. Multi-disciplinary Services

- Early Intervention Clinic Assessment
- Feeding Clinic
- Social Skills Training
- Parenting Education / School Program

2. Occupational Therapy Services

- Early Intervention Program for Developmental Delay
- Early Intervention Program for Neuropediatric
- Neurorehabilitation Program for Paediatric
- Play Therapy
- Cognitive Rehabilitation
- Group Therapy (Incredible Years Programme)
- Home Visit & School Visit
- Splinting and Assistive Devices

3. Physiotherapy services

- Early Intervention Program for Neuropediatric
- Neurorehabilitation for Neuropediatric
- Fitness for Paediatric

4. Speech Therapy services

- Speech Language Program
- Comprehension Program
- Swallowing and Feeding Therapy

5. Audiology Services

- Hearing Assessment & Consultation
- Hearing Behaviour Assessment & Consultation

6. Clinical Psychology Services

- Assessment & Consultation
- Psychological Rehabilitation
- Social Skill & Group Therapy

CHILDREN'S DEVELOPMENT DEPARTMENT

Facilities:

- 1. TRooms:** These innovative environments are designed to leverage technology and physical devices to stimulate children's senses and aid in medical treatment, performance assessment, and learning support. The TRooms are the first of their kind in Southeast Asia and provide tailored interventions to enhance the development of children with diverse needs.
- 2. Sensory gym:** This stimulating environment is designed to engage and support individuals of all ages in sensory integration and motor skill development.
- 3. Physiotherapy room:** This room supports children in improving mobility, strength, and overall physical well-being.
- 4. Audiology room:** This dedicated space is used for conducting hearing tests, evaluations, and treatments.

PAEDIATRIC RADIOLOGY DEPARTMENT

Paediatric Radiology Department provides specialised diagnostic imaging services for paediatric patients. With state-of-the-art technology designed for children's comfort, the department ensures accurate and efficient diagnoses while prioritising the comfort and safety of young patients.

Services:

- CT Scanner
- X-Ray
- Ultrasound
- MRI

Our team is dedicated to providing the highest quality care and support for children and their families, ensuring a healthy and happy future for every child we serve.
